

Ladies Bible Study
Spring Session 2013
April 18-May 9

"Why Can't Everyone Be Like Me?"
- led by Cheryl Mahr

Join us in this study of personalities based on the DISC model as we investigate the unique way God created and gifted each of us to accomplish His kingdom work. Cheryl will be using several models from the professional and Christian realms to help us understand where we are in relating to others and understanding that everyone has differences. We will use scripture to look at the lives of Abraham, Moses, Peter, and Paul - four very different personalities but with one common purpose - to honor and obey God. We will discover specifics about our own personalities and those of our family and friends which will help us better relate to them and love them as we learn to see them through the eyes of Jesus. This study is relevant for all women and is filled with both Biblical truth and life application. Each session will be different and filled with surprising revelations, so you don't want to miss a week!
